THESE WARNINGS APPLY TO THE APPLIANCE, AND ALSO WHERE APPLICABLE, TO ALL TOOLS, ACCESSORIES, CHARGERS OR MAINS ADAPTORS.

TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK, OR INJURY:

2. This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or reasoning capabilities, or lack of experience and knowledge, only if they have been given supervision or instruction by a responsible person concerning use of the appliance in a safe way and understand the hazards involved. Cleaning and user maintenance shall not be made by children without supervision.
3. Do not allow to be used as a toy. Close attention is necessary when used by or near children. Children should be supervised to ensure that they do not play with the appliance.

5. If the supply cable is damaged, it must be replaced or repaired by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

6. This appliance has a non-self resetting thermal cut-out safety device to prevent overheating. If your appliance cuts out, unplug it from the mains supply socket and leave to cool.
7. CAUTION: In order to avoid a hazard due to inadvertent resetting of the thermal cut-out, this appliance must not be supplied through an external switching device, such as a timer, or connected to a circuit that is regularly switched on and off by the utility company, or plugged into any socket where the electrical supply is unstable or likely to be turned off.
8. When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off. For additional protection when the appliance is used in a bathroom, it is recommended that a Residual Current Device (RCD), with a residual operating current not exceeding 30mA is installed in the electrical circuit supplying the bathroom. Contact a qualified electrical installer for advice.
9. Do not use the appliance for any other purpose than drying hair.
10. Do not handle any part of the plug or appliance with wet hands.
11. Do not unplug by pulling on the cable. To unplug, grasp the plug, not the cable. Do not use with an extension lead.

13. Do not use any lubricants, cleaning agents, polishes or air fresheners on any part of the appliance.
14. Contact the Dyson Helpline when a service or repair is required. Do not disassemble the appliance as incorrect reassembly may result in an electric shock or fire.
15. If the appliance is not working as it should, if it has received a sharp blow, if it has been dropped, damaged, left outdoors, or dropped into water, do not use and contact the Dyson Helpline.

The air exit, metal ring, attachments and area shaded in red may be hot during use. Allow them to cool before handling.
